

**ELECTRICAL ANALYSIS**

|           |  |   |   |
|-----------|--|---|---|
| <b>A.</b> | Describe the proposed electrical system, distribution, and equipment.  |   |   |
|           | 400 AMP service  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
| <b>B.</b> | proposed Electrical list   |   |   |
|           |  |   |   |
| <b>1.</b> | Service  |   |   |
|           |  |   |   |
|           | a. Type: Copper  | Overhead <input checked="" type="checkbox"/>    | Underground ___                                       |
|           |  | Single Phase ___                                |   |
|           |  | Three Phase <input checked="" type="checkbox"/> | Voltage <u>120</u>                                    |
|           |  | Amperage <u>400</u>                             |   |
|           |  |   |   |
|           | b. Existing Condition:   | Good ___  | Average ___   |
|           |  | Poor ___  |   |
|           |  | Needs Repair ___                                | Needs Replacement <input checked="" type="checkbox"/> |
|           |  |   |   |
|           | c. Additional Comments:  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           | d. Will the proposed electrical service adequate to meet building use? |   |   |
|           | Yes <input checked="" type="checkbox"/>                                | No ___  |   |
|           |  |   |   |
|           | If no, what is?  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
|           |  |   |   |
